# Terms of Approval

## Design Organisation Approval Certificate

### EASA.21J.075

#### 1 Scope of approval

This Design Organisation Approval has been granted for:

- designing in accordance with the applicable type-certification basis and environmental protection requirements minor changes and minor repairs to aircraft in the following areas:
  - Metallic and composite structure, for non-critical parts
  - Equipment & Furnishing
  - Aircraft electrical systems and avionics.
- demonstrating and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

#### 2 Categories of products

Large and small aeroplanes.  
Propellers

#### 3 List of products

[Not applicable]

#### 4 Privileges

- a) The holder of this design organisation approval shall be entitled to perform design activities under Part21 and within its scope of approval.
- b) Not applicable.
- c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:
  1. to classify changes to type design and repairs as "major" or "minor";
  2. to approve minor changes to type design and minor repairs;
  3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA ref. EASA.21J.075";

## 5 Limitations

[See in 1, above]

1. Changes which impact product's environmental characteristics are excluded.
2. Propellers: Minor composite repairs on R408 series spinners only

Date of issue: 26 June 2015
