

Sheet Metal Worker (Upcoming or Experienced)

Due to our continued expansion, we are looking for additional support at the Base Maintenance department. This concerns a full-time (40 hours per week) permanent position at Maastricht Airport, The Netherlands.

Company profile

SAMCO Aircraft Maintenance, established in 1988, is an independent third party maintenance provider for a complete range of regional jet and turboprop aircraft.

Keeping the aircraft in the air, safe and punctual takes a team of dedicated, professional, highly trained and motivated maintenance engineers, able to troubleshoot and maintain aircraft mechanical, avionic and powerplant systems.

SAMCO Aircraft Maintenance employs over 200 engineers operating out of its base maintenance facilities located at Maastricht Airport and at various line stations across the world.

More information can be found on our website www.samco.aero

Application description:

During the maintenance of an aircraft, the sheet metal worker takes care of e.g. all mechanical sheet metal processes and repairs large on wing sheet metal and pax doors, airstair doors and nacelles, etc. Upcoming (junior) sheet metal employees work under close supervision of an experienced sheet metal worker.

Task description / Responsibilities include:

- › Within the company's scope of work, carry out independently all types of primary and secondary structural repairs and modifications on the aircraft or in the sheet metal workshop.
- › Calculate man-hours for modification assignments, defect rectification and other specialized repairs.
- › Administration of performed tasks like signing off applicable aircraft and company documentation, registration of man-hours, etc.
- › Supervision and training of junior sheet metal workers (in case of experienced sheet metal worker).
- › Deputize during absence of the Shop Supervisor (in case of experienced sheet metal worker).
- › Keeping hangar and workshops clean.

Applicant qualifications:

- › In possession of preferably EASA approved sheet metal training certificates is an advantage.
- › Experience in a similar position in an international work environment is an advantage.
- › Ability to read and interpret engineering documents.
- › Good English communication skills in writing and verbally.
- › Ability to work in a dynamic environment with deadlines.
- › The applicant must be pro-active and customer focused.
- › The applicant must be a team-player and have an accurate and conscientious work attitude.
- › The applicant must have a flexible attitude, be willing to travel abroad and cover weekend and evening duties in a regular pattern and work on the shop floor.

We offer:

- › Required coaching and training.
- › Personal protective equipment as well as standard uniform and tools.
- › The opportunity to become part of a dedicated and professional team in an international working environment.
- › The possibility to develop yourself in line with your ambitions.
- › Good primary and secondary employment conditions.
