

Line Maintenance Controller

Due to the continued expansion, SAMCO is looking for additional support at the Line Maintenance department. This concerns a full-time (40 hours per week) permanent position at Maastricht Airport, The Netherlands.

Company profile

SAMCO Aircraft Maintenance, established in 1988, is an independent third party maintenance provider for a complete range of regional jet and turboprop aircraft.

Keeping the aircraft in the air, safe and punctual takes a team of dedicated, professional, highly trained and motivated maintenance engineers, able to troubleshoot and maintain aircraft mechanical, avionic and powerplant systems.

SAMCO Aircraft Maintenance employs over 200 employees operating out of its base maintenance facilities located at Maastricht Airport and at various line stations across the world.

More information can be found on our website www.samco.aero

Application description:

All line stations across the world are supported by the Line Maintenance Controller from the Maastricht maintenance facility.
